

Hi There.

I've worked for the past seven years as a **designer and web developer**. Most of my experience has been in small to mid-size organizations where I have worked successfully both remotely and in-office.

I have comprised as the sole creative department for many of the organizations I have/am working for. I take projects and execute them from pixel to code.

Experience

DOMINO DATA LAB

Designer, Web Developer

2016-present
